SUGGESTED ACTIVITY - Orakei Korako Hidden Valley

Orakei Korako is situated on the Waikato River at Lake Ohakuri, which is a Hydro-Electric power plant. The name Orakei Korako can be interpreted as 'Place of Adorning'. Maori women used the pool to bath and beautify themselves for ceremonies. The Silica Terraces that form the base of Orakei-Korako Geysers and Thermal Park are believed to be the largest of its kind since the destruction of the famous Pink and White Terraces in 1886 on the edge of Lake Rotomahana beneath Mount Tarawera. At present, there are up to 23 active natural geysers that play freely throughout the area. One geothermal consultant stated that Orakei Korako has the greatest number of active geysers of any geothermal field in New Zealand, with the most variable and most interesting changes. There is a vast number of boiling hot springs to view at Orakei Korako as well as mud pools and there are extensive bush walks to enjoy through areas of native flora and fauna. The highlight for many visitors on the walk through the valley is the thermal Ruatapu Cave (sacred hole). The cave extends 120 ft down to a hot pool at the bottom named 'Waiwhakaata', which means 'pool of mirrors'.
